**DWC posts modified Supplemental Job Displacement Benefit regulations for comment**

The Division of Workers' Compensation (DWC) has modified the proposed Supplemental Job Displacement Benefit regulations. DWC has electronically distributed the 15-day notice of modification to interested parties and has posted the modified regulation text and forms on the DWC website. Members of the public may comment on the modifications until 5 p.m., May 31. The proposed modifications include:

- Providing that employees who have lost no time from work are deemed to have been offered regular work.
- The voucher form (DWC-AD Form 10133.32) has been edited to be more user-friendly. Content has been moved so that fillable fields are on one page and injured workers will not need to photocopy the pages when returning forms to the claims administrator for processing.
- The Physician's Return to Work & Voucher Report (DWC-AD Form 10133.36) has been edited to conform to the functional capacity assessment of the DWC PR-4 form for easier completion by primary treating physicians.

The notice, text of the regulations, and forms can be found [here](#).
